Attention Fay:

Re: Chemical Processors, Inc. - Pier 91  
WAD 00981 2917

We are investigating hazardous waste handling at the Chemical Processors, Inc. (Chempro) Pier 91 facility and believe that information on the boiler explosion that occurred Nov. 23, 1990 at Pacific Northern Oil Company, which subleases property from Chempro, is relevant to our investigation. Accordingly, we would appreciate copies of any fire department reports concerning this incident, which you have identified as incident #12801.

If you have any questions concerning this request, please contact me at 206-553-1254.

Sincerely,

Sylvia E. Burges  
RCRA Compliance Officer
